- 1) The amendment filed 12/08/2004 is acknowledged. Claim 2 has been canceled.
- The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970) and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed Terminal Disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3) Claims 1,3,4,6,8 and 12 are rejected under the judicially created doctrine of obviousness-type double patenting as being

unpatentable over claims 1-4,6-8 and 10 of U.S. Patent No. 6,767,697. Although the conflicting claims are not identical, they are not patentably distinct from each other because:

a) Claim I in this instant application recites the same features as claims I and 2 or 7 and 8 of U.S. Patent No. 6,767,697.

Claim I in this instant application recites the same features as claim I and 2 of U.S. Patent No. 6,767,697.

The different between claim I in this instant application and claims 7 and 8 of U.S. Patent No. 6,767,697 is one recites a method for producing an optical disk and the other recites an optical disk, however, they both direct to the same structures with each other.

- b) Claim 3 in this instant application recites the same features as claim 3 or 9 of U.S. Patent No. 6,767,697.
- c) Claim 4 in this instant application recites the same features as claim 4 of U.S. Patent No. 6,767,697.
- d) Claim 6 in this instant application recites the same features as claim 6 or 10 of U.S. Patent No. 6,767,697.
- e) Claim 8 in this instant application recites the same features as claims 1 and 2 or 7 and 8 of U.S. Patent No. 6,767,697.

The different between claim 8 in this instant application and claims 1 and 2 or 7 and 8 of U.S. Patent No. 6,767,697 is one recites a

Art Unit: 2653

method for producing an optical disk and the other recites an optical disk, however, they both direct to the same structures with each other.

- f) Claim 12 in this instant application recites the same features as claims 6 or 10 of U.S. Patent No. 6,767,697.
 - 4) Claim 15 is allowed.
- 5) Applicant's arguments with respect to claims 1,3,4,6,8-15 have been considered but are moot in view of the new ground(s) of rejection.
- 6) Any inquiry concerning this communication or earlier communications from the examiner should be directed to TAN X. DINH whose telephone number is (571) 272-7586. The examiner can normally be reached on Monday Friday, 8:00AM 5:30PM.

The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)305-3900.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.

Art Unit: 2653

Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at (866) 217-9197 (toll-free).
